

MDF

YEARBOOK

2009
10

Market
demands
finance.

Products
demand
profits.

**We are proud to announce that the new
MDF YEARBOOK 2009/2010 is now available**

This new addition of our Yearbook focuses on Complexity Management in a Changing Industry.

Our editors, contributors and advertisers have worked hard to focus on the really important issues that concern the future development of the MDF industry. Hence this version focuses on management issues of current importance that includes: Complexity Management in a Changing Industry covering 'Market Status & Risk Evaluation' and 'Merger & Acquisition Routes to Global Competitiveness'.

- ✚ If you are a regular recipient of the Yearbook you should already have received your digital pdf formatted copy.
- ✚ If you have not previously read, or received a copy of the YEARBOOK, you may be eligible for a free digital pdf version.

Printed copies are also available at a competitive cost for those who prefer a hard glossy copy.

Please send an email to info@woodpanelsonline.com and we will respond to your request.
